

Treviso

Fabric recommendations

Treviso's sleek aesthetic is created by its shaped polyurethane shell and is best achieved when upholstered in a wool fabric which has inherent stretch that moulds well around the corners.

We recommend the following wool fabrics for Treviso:

Augustus by Warwick	Bespoke by Warwick	Blazer by Textilia
Calibre by Vivid	Centennial by Textilia	Crombie by Warwick
Feel by Vivid	Mainline Flax by Textilia	Move Express by Textilia
Origin by Textilia	Poole by Warwick	Synergy by Textilia

With many polyester and synthetic fabrics it is difficult to achieve a top quality finish because of the lack of stretch.

Please contact us to discuss suitable options if you need to use a polyester or synthetic fabric.

Fabric requirement: 2.7m (or 2.0m Shell/0.7m Seat pad)

Please contact us for more information on fabrics, or advice on fabric suitability.
